

## Valentino Petale Chain Strap Leather Mini Bag

Who would not want to own a Valentino? If only our wallets were a little more forgiving. However, there is now scope for a little indulgence with the new **Valentino Petale Chain Strap Leather Mini Bag**, you get the brand, a mini bag at a reachable price.

I never quite understood the concept of mini bags, or clutch as they are called. What is the convenience of a bag which you have to constantly hold-on to? For the precious few who think like me, Valentino has come out with this mini bag with a long chain, with a drop length of 24, which combines fashion with usability. The chain is thankfully detachable, which is good news for all those clutch fanatics.

However, with the mini dimensions of the bag, at 5"W X 5"H X 1"D, there is not much you can fit into it. But basic essentials like cash, credit cards, phone, can be adjusted within this stylish bundle of leather. Besides, who buys a Valentino mini bag on utilitarian grounds? The elegant petal applique so typical of Valentino adds that feminine touch, accentuated by the black, blush, lipstick, and red colors it is available in.

For all those who care to know, clutch bag and the floral print are the freshest pick of the spring 2011 trend and this delightful little bag is available at a price of \$325.
